### **PROFILE**

I am hard working, self-motivated and physically fit. I come from a farming family where communication and team work are key roles especially when working with animals which are often unpredictable. This has helped me to be aware of safety issues at work where I always ensure appropriate PPE is used. I am a reliable, cheerful person, happy to 'muck in' and I like a physical challenge. I work well in a team or independently and am able to personally deal with any problems that may occur. I thrive at work, love to be challenged in new situations and really enjoy meeting people.
